

The background of the entire page is a painting. It depicts a woman with long, wavy brown hair lying on her back in a lush, dense forest. She is unclothed, with a light blue, translucent fabric draped over her lower body. She is looking directly at the viewer with a serene expression. The forest is filled with large, green, lobed leaves and thick, gnarled tree roots. In the background, there is a soft, ethereal light, possibly from a fire or a distant light source, creating a dreamlike atmosphere. The sky is a mix of soft pinks, purples, and blues.

*Exhibition Catalog*

# *Dreamland*

*As we are constantly swinging between our multiple realities, there lies a sweet spot which we leave to our imagination. For some, this is filled by magic moments of their fantasies, and for others, there is an intense desire.*

*In this liminal space, lies your dreamland. Full of your happy memories, or beautiful things that you envision for yourself.*

*These can be inspired by the fairytales you read as a little girl, or an alternate reality you live in. Art is the purest medium to showcase their dreamland through the array of colors, textures and layers of your own dreamland.*

*We hope to create this ultimate fantasy world with artists in this Online Exhibit.*

# *Curators Note*

*I am so excited to present this amazing group of international artists who have interpreted this into their own way. I was looking for artists who used different mediums, who may also come from different places in the world, to create an inclusive and diverse depiction of what dreamland means to each of us.*

*Dreamland can be a place we can escape to through our imagination or storytelling or history or even art.*

*Dreamland can also be something we are living in and we are respecting the things are already in our life.*

*The artists in this show create dreamland some using fantasy and some by appreciating what they are currently living in.*

*I wanted to share both the perspectives. And celebrate how dreaming can keep us all going in adversity and in joy.*

*And, some artists have touched pain and some focused on beauty.*

*There are colours, textures, stories.*

*And, celebrate all of us together.*
